- Lifting capacity: 250 kg (550 lbs)
- Load capacity of the bed surface: 300 kg (660 lbs)

MO1 Evo

Absolute functionality for professional demands

With an entry height of 50-82 cm (19.7-32.3 in), the MO1 Evo is the ideal spa table for physically challenged guests in height, weight or mobility. Complementing the high-tech features, the precise and thoughtful functions ensure exemplary adjustment options to provide the best working conditions for the

therapist and ultimate comfort for the client. The head section can be tilted by +60°/-35° and the armrests can be electrically lowered at the push of a button. The backrest can be set up to 70° and the leg section up to 20°. The MO1 Evo is also available with soft upholstery for added cushioning.

Extra thin arm- & headrest (MO1 Evo Soft)

To support maximum space for the therapist's legs during facial treatments, the arm- and headrest of the MO1 Evo Soft is thinner than the upholstery. This innovative detail provides the best comfort in your daily routine.

Swiveling and electrically lowerable armrests

The MO1 is the first spa table on the market that features swiveling armrests that can be lowered electrically to increase the necessary space to perform facial treatments and provide maximum comfort to both guest and therapist.

Holder for (magnifying) lamps

A surprising and handy feature is the extendable magnifying lamp holder made of stainless steel. Designed to fit the Flex LED magnifying lamp, it simply disappears under the bed when not in use.

Multifunctional headrest

This newly designed headrest offers full flexibility for every requirement. Depending on preference, a round or U-shaped face cradle can be used.
